

PTFC WORKING GROUP:

GET INVOLVED!

I am interested in taking part in the following group (please cross the box(es) for those that apply:

Working Group

Or

Sub-group:

Model for community ownership – what would this look like; is it a structure used by another club; structure and relationships; how it would work in real time

Finance and Membership – who will be members; what will it cost to run; how will finances be arranged/pledges made

Fan engagement – responsible for organising all public events, surveys, consultations etc
and liaising with Comms for maximum impact. Responsible for identifying the name for the new entity in association with the fan base

Communications – responsible for all written materials and social media, identify a comms schedule and deliver it for the period until 30th March

Creating a new legal entity – to work with external specialist lawyers to create the legal framework for the new fan ownership entity

Project management/Creating the Presentation – tracking all activity is crucial as is managing it so this group will pull it all together to allow activity schedules and a timeline to be created. In parallel, a final document and presentation needs to be structured and created to allow information to be dropped in. This group will look at that.
